Types of Membership and fees

Full members:

Full members of AETIS are legal entities, whom are officially registered in a country belonging to the European Union, intending to become EETS providers, in particular:

- Either companies, before EETS setting up on the European territory, ETC service, payment or service card issuing companies
- Companies issuing, distributing or rendering an interoperable electronic toll collection service (either payment, fuel or service card) according to Directive 2004/52/EC only in competitive markets

In both cases companies listed above cannot

- Be operating toll systems nor be in Toll Charger role (according to the definition given in Decision 2009/750/EC)
- Nor can they be affiliates of Toll Chargers unless they have acceptance agreements for their services or equipment (cards, badges, payment services) in more than one European country

Associated members:

Associated members of AETIS are legal entities that, aside from the above limitations for full members, can also be:

- Affiliates of toll Chargers and have acceptance agreements for their services or equipment (cards, badges, payment services) in more than one European country
- Toll operators and have acceptance agreements for their services or equipment (cards, badges, payment services) in more than one European country
- Companies who have a legal structure in which one or more existing members have already a AETIS full membership

Rights and obligations:

Respective rights and obligations Full vs. Associated members (FM vs. AM) in accordance with the statutes of the Organisation	FM	AM
The right to be present at the General Assembly by representative(s)	✓	✓
